BLISS ORTHODONTICS

Love. Your. Smile.

BY CLARE HEKIN LYNCH PHOTOS BY SCOTT PEEK PHOTOGRAPHY

At Bliss Orthodontics, you'll smile as soon as you walk in the door of the relaxed and inviting Coppell office. And you'll beam even bigger and brighter when your orthodontic treatments are complete and your stunning new smile is revealed.

"Beautiful smiles for everyone who comes in is my goal," shared Dr. Anabella Henao. With more than 25 years of experience, the doctor knows that getting corrective treatments can be stressful for you and your loved ones. "It's a big change! That's why I take my time with each of my patients and I listen carefully to their concerns. I evaluate their teeth, mouth, and face in order to reflect their individual needs—after all, this is your smile." Dr. Henao also strives to get to know each of her patients personally so that children, teens, and adults will all feel comfortable in her care. "I want orthodontic treatment to be a fun experience for everyone. And believe it or not, it can be!"

GETTING TO KNOW THE ORTHODONTIST

You only need to spend a few minutes with Dr. Henao to realize how passionate she is about her profession. The daughter of a cardiologist, she knew she wanted to be in the health profession at a young age and help her patients to get a better smile and life.

Dr. Henao believes that in her profession she has the opportunity (and responsibility) to do much more than straighten teeth. She strives every day to be a good role model to her young patients, and she loves to witness the blossoming that occurs in her patients as they gain more self-confidence. She likes to get to know her patients well, and she promotes healthy habits that will help keep their smiles in great shape for a lifetime. "I don't just concentrate on the teeth, I also take into account the effects of aging on the face and perform a detailed and comprehensive study on all of my patients so that I can tailor each treatment to their individual needs. This ensures that they will look their very best."

Dr. Henao graduated with honors in the Advanced Education in General Dentistry program at Boston University, earning the school's Excellence Award. Prior to completing her orthodontic residency at Boston University, Dr. Henao was invited to be a faculty member at the Restorative Department, which helped her to further learn and understand more multi-disciplinary orthodontic cases, including implants and bridges. "It was extremely rewarding for me to have this experience because I am very detail-oriented."

Outside her office, Dr. Henao enjoys her family time with her husband Raul and their three kids Rodrigo, Gustavo, and Lucas.

THE BLISS DIFFERENCE

The incredible staff at Bliss Orthodontics understands that patients want the best treatment at an affordable cost in the shortest time possible. "The patient-centered standard is held across all aspects of our office, from

"It's a big change! That's why I take my time with each of my patients and I listen carefully to their concerns. Dr. Henao also strives to get to know each of her patients personally so that children, teens, and adults will all feel comfortable in her care. "I want orthodontic treatment to be a fun experience for everyone. And believe it or not, it can be!"

"I have built every aspect to meet the needs of residents visiting from Coppell, Lewisville, Irving, Carrollton, Flower Mound, or any other town in North Dallas. Ours is a friendly, relaxing, and almost spa-like practice, where the focus is always on you. Your comfort, concerns, and smile dreams always come first."

the location we have selected to our staffing, scheduling, and the technologies incorporated into our various treatments," said Dr. Henao. "I have built every aspect to meet the needs of residents visiting from Coppell, Lewisville, Irving, Carrollton, Flower Mound, or any other town in North Dallas. Ours is a friendly, relaxing, and almost spa-like practice, where the focus is always on you. Your comfort, concerns, and smile dreams always come first."

Having treated patients from as young as age 7 to as old as age 71 for more than two decades, Dr. Henao provides specialized dental care to help straighten teeth. Treatments include clear self-litigated braces (not requiring the use of elastics), and clear

aligners (including Invisalign), as well more accelerated orthodontics including PRO-PEL and VPro5, when needed. "These are revolutionary tools which allow the teeth to move faster and more predictably into their ideal position, therefore increasing the speed of orthodontic treatment," she shared. The practice also offers a digital intraoral scanner, which is a cutting-edge technology that allows Dr. Henao to create a computer-generated replica of the mouth's hard and soft tissues using lasers and other optical scanning devices.

Dr. Henao attributes much of her continued success to working alongside a highly-trained and personable staff. "No matter how good you are as a doctor, if you don't have an amazing staff then you're setting yourself up for a disaster. Between the countless hours of continuing education we pursue, the creative thinking and collaboration of each and every member of my team, and our overall desire to serve the community both inside and outside our front door, we are here for you. We hope to be a part of the wonderful and life-changing experience having a new smile can bring to you."
